Violet Township requires Zoning and Plans Examination and Building Permits for all new construction.

The following items must accompany completed and signed Zoning and Plan Review/Building Permit application forms:

1. A Flood Plain Building Permit is required to be obtained from Fairfield County Regional Planning Commission if a property contains any portion of a regulatory 100-year floodplain. Please contact the Fairfield County Flood Plain Administrator at (740)687-7110 if you are uncertain whether you need to obtain this permit. A Certificate of Zoning Compliance cannot be issued unless this permit has been issued by Fairfield County Regional Planning.
2. A plot plan or suitable drawing (on a sheet no larger than 11" x 17"), drawn to scale, showing all existing structures and their size, the location of the proposed construction on the property and its dimensions to the front, rear and side property lines (setbacks are parallel each property line).
3. A completed and signed AFFIDAVIT FOR PERMIT or HOMEOWNER PERMIT AFFIDAVIT.
4. For any property located on a Township road right-of-way, a Right-of-Way Permit application must be submitted and approved by the Township Engineer.

Pursuant to Violet Township Trustees Resolution Number 2002-0904-02, a property owner and/or builder must establish a single point of access onto said property, place large gravel within the access and utilize only that access point for all ingress/egress to and from the property during the construction period.
 - b. For installation of a culvert or drain tile in a drainage ditch within a Township road right-of-way, an inspection by the Township Engineer is required prior to covering the culvert with fill material.
5. A DESC (Drainage, Erosion and Sedimentation Control) Permit is required for all new home construction in Violet Township. A plan showing the type and placement of appropriate sedimentation and erosion control devices is required to accompany the completed application form.
6. If the proposed home is not served with public water and/or sewer services, a copy of the approved well and sewer permits issued by the Fairfield County Health Department must be provided.
7. Plans of the proposed building (TWO sets of plans only) including but not limited to:
 - a. Foundation plan with elevations;
 - b. Floor plans showing all levels; spans of main beams, floor joists, rafters and trusses and material types;
 - c. Wall, floor and roof sections showing the type and location of material;
 - d. Elevations of the exterior showing type of material; and
